college to career major map

Career Development Center

	1ST YEAR	2ND YEAR	3RD YEAR	4TH OR FINAL YEAR
Academics	<p>Explore the foundations of Education & Science along with some LASC courses.</p> <p>Connect with your advisor early and utilize your faculty office hours when questions and concerns arise.</p> <p>Need a little help in your classes? Look into tutoring with the Academic Support Center.</p>	<p>Take a deeper dive into the discipline of Education & Science and begin considering a minor and/or certificate such as Coaching.</p> <p>Schedule an appointment with a Career Coach to discuss how to connect your academics to your future career.</p>	<p>Schedule an appointment with your Academic Advisor to ensure you're on track for graduation.</p> <p>Take inventory of your professional goals and decide if your future will need to include graduate school.</p>	<p>Participate in the Student Academic Conference to showcase research, connect with employers, and to boost your resume.</p> <p>Ensure you submit your application for graduation on time.</p>
On-Campus Experience	<p>Sign up to participate in the Education Learning Community.</p> <p>Join a major specific student organization such as the Chemistry & Biochemistry Club. Explore other student organizations to join on DragonCentral.</p> <p>Participate in Student Life Pathways to continue growing your skills/knowledge outside of the classroom. We recommend starting with the CommunityLife Pathway.</p>	<p>Find an on-campus job such as tutoring or learning assistant positions. Visit DragonJobs powered by Handshake or connect with faculty to find opportunities.</p> <p>Continue working on your Student Life Pathways. Try working your way through the Personal Wellness and the Equity and Inclusion paths.</p>	<p>Begin your leadership journey by applying for a student leadership position or running for an officer position in a student organization. Find available leadership positions on DragonJobs in early spring.</p> <p>During your third year, we suggest focusing on the Professional Success and Contribution and Influence Student Life Pathways. These will help connect you to potential employers and develop skills necessary for success post-graduation.</p>	<p>Assess what experiences or skills are areas of growth for you and fill in gaps with volunteering, involvement in student organizations, or part-time employment.</p> <p>Finish up your pathways and be sure to add your accomplishments to your LinkedIn and resume.</p>
Connect to the Community	<p>Volunteer on or off-campus with different community organizations such as Boys and Girls Club of the RRV, Youthworks, Big Brothers Big Sisters, the Inspire Innovation Lab.</p>	<p>Join LinkedIn to begin building your professional network and online presence. Think of your profile as a virtual resume and make sure to update it regularly to reflect new jobs, research, coursework, volunteering, involvement, and skills.</p>	<p>Continue your involvement with student organizations, on and/or off-campus employment, the student life pathways, student teaching, etc...</p> <p>Think about teaching a course during the summer with College for Kids & Teens.</p>	<p>Join professional organizations such as the MN Science Teachers Association or American Chemical Society Ed Division to gain access to research, continuing education opportunities, job boards, and message boards. Make sure to join prior to graduation to receive the discounted student rate (when applicable).</p>
Understand Your Career	<p>Start researching potential career paths on O*Net. Here, you will be able to find valuable information such as typical tasks associated with the profession, skills and knowledge needed, education and licensures needed, wages and employment trends, professional organizations, and related occupations. We suggest you search for careers such as Secondary Teacher.</p> <p>Connect with faculty to learn about research opportunities.</p>	<p>Find related part-time employment such as America Reads Tutor positions. This position allows you to develop the real-world skills you need for your career. Connect with the Career Development Center to learn more.</p> <p>Attend Career Development Center events and workshops to develop professional skills such as interviewing, negotiation, and more.</p>	<p>Continue attending professional development-related events on-campus, and connect with faculty and teachers in your classrooms to learn more about the field and gain insights on how to be successful in your job search.</p>	<p>Attend the Tri-College Education Fair and the MN Education Job Fair to connect with districts. Both of these events take place every spring. Check DragonCentral for more information.</p> <p>Schedule appointments with a Career Coach to go over your professional documents and to prepare for upcoming interviews. And remember, once a dragon always a dragon. You have access to these services for life.</p>

Where can you go?

A degree in **Chemistry Education** can take your career in many directions. Most students choose to enter the workforce right after graduation and many continue their education after a few years in the classroom. Our students are equipped with a strong foundation for a career as a(n):

- High School Chemistry Teacher
- Middle School Science Teacher
- Non-profit employee
- Community Educator

What skills will you need?

To be successful in the world of **education** you will need the following skills:

- quantitative
- critical thinking
- active listening
- empathy
- dependability
- adaptability
- integrity
- self control

Thankfully, through coursework, on-campus involvement, part-time employment, and student teaching, you will be prepared for life post-graduation.
