

# Environmental & Human Geography

Career Development Center

## college to career major map

	1ST YEAR	2ND YEAR	3RD YEAR	4TH OR FINAL YEAR
Academics	<p>Start taking LASC courses as well as foundational and core <b>Environmental &amp; Human Geography</b> courses.</p> <p>Need a little help in your classes? <b>Look into tutoring with the Academic Support Center.</b></p>	<p>Take a deeper dive into the discipline of <b>Environmental &amp; Human Geography</b> and begin considering faculty mentored research.</p> <p><b>Schedule an appointment with a Career Coach</b> to discuss how to connect your academics to your future career.</p>	<p>In addition to working with your advisor to get your access code, schedule an appointment with them to ensure you're on track for graduation.</p> <p>Take inventory of your professional goals and decide if your future will need to include graduate school. If so, take the necessary exams and keep track of application timelines.</p>	<p>Participate in the <b>Student Academic Conference</b> to showcase research, connect with employers, and to boost your resume.</p> <p>Ensure you submit your application for graduation on time.</p>
On-Campus Experience	<p>Join a major-specific student organization such as the <b>Geo Club</b> or the <b>Dragon Anthropological Association</b>.</p> <p>Participate in <b>Student Life Pathways</b> to continue growing your skills/knowledge outside of the classroom. We recommend starting with the Community Life Pathway.</p>	<p>Find an on-campus or part-time job in the community. Visit <b>DragonJobs powered by Handshake</b> to see positions are open.</p> <p>Continue working on your <b>Student Life Pathways</b>. Try working your way through the Personal Wellness and the Equity and Inclusion paths.</p>	<p>Begin your leadership journey by applying for a student leadership position or run for an officer position in <b>Geo Club</b>. Find available leadership positions on <b>DragonJobs</b> in early spring.</p> <p>We suggest focusing on the <b>Professional Success and Contribution and Influence Student Life Pathways</b>. These will help connect you to potential employers and develop skills for success post graduation.</p>	<p>Assess what experiences or skills are areas of growth for you and fill in gaps with volunteering, organizations, or part-time employment.</p> <p>Finish up your <b>pathways</b> and be sure to add your accomplishments to your LinkedIn and resume.</p>
Connect to the Community & World	<p>Volunteer on or off-campus with different community organizations such as the <b>Regional Science Center</b>.</p>	<p>Join <b>LinkedIn</b> to begin building your professional network and online presence. Think of your profile as a virtual resume and make sure to update it regularly to reflect new jobs, research, coursework, volunteering, involvement, and skills.</p>	<p>Attend or present at various conferences at the local, regional, and/or national levels. Some conferences include the <b>Plains Anthropological Society</b>, the <b>Council for Minnesota Archaeology</b>, and the <b>American Association of Geographers</b>.</p>	<p>Join professional organizations such as the <b>American Geological Institute</b> to gain access to research, continuing education opportunities, and job boards.</p>
Understand Your Career	<p>Explore your interests, skills, and values and learn about the career readiness competencies by taking the <b>FOCUS 2</b>, an online assessment free for all MSUM students.</p> <p>Schedule an appointment with the <b>Career Development Center</b> to review your FOCUS 2 results and to begin building your resume.</p>	<p>Start researching potential career paths on <b>O*Net</b> or the <b>Occupational Outlook Handbook</b>. Here, you will be able to find valuable information such as typical tasks associated with the profession, skills, and knowledge needed, education and licensures needed, wages and employment trends, professional organizations, and related occupations. We suggest you search for careers such as <b>Geographer</b>.</p>	<p><b>Attend professional development-related events</b> on-campus, and connect with faculty to learn more about the field and gain insights on how to be successful in your job search.</p> <p>Find an internship or part-time job with a local or regional organization to learn the ins and outs of your chosen career. Before applying, schedule an appointment with the <b>Career Development Center</b> to help you prepare.</p>	<p>Network relentlessly! Attend the spring Career Fairs to get connected to employers looking to hire soon-to-be grads. Check <b>DragonCentral</b> for more information.</p> <p><b>Schedule appointments with a Career Coach</b> to go over your professional documents and to prepare for upcoming interviews. And remember, once a dragon always a dragon. You have access to these services for life.</p>
